BUDGET NOTES

General Remarks.

In presenting the budget estimates for the year 1950-51 the Syndicate wishes to bring it to the notice of the Senate that the budget has been submitted in two parts - income and expenditure - under the following columns:-

1. Recurring for 1950-51.
2. Non-recurring for 1950-51.
3. Ultimate recurring cost.
4. Actuals for 49-50.

The financial year of the University is from 1st April to 31st March of the following year. The actuals shown in column 4 are for the period of nine months i.e. July 1949 to the end of March 1950.

The particulars under 'University Teaching Staff' are shown in Appendix 'A'

The budget estimates for 1950-51 show a deficit of -- Rs. 6,78,255/-

INCOME SIDE

Government Grant:

It was presumed that the Government would sanction to this University a recurring grant of Rs.3,75,000/- as was sanctioned to the Poona University during their first year. It was also expected that the Government would sanction Rs.8,00,000/- as non-recurring grant to this University for the current year as they had earmarked Rs. 40,00,000/- as non-recurring grant to be made available to this University during the course of the first five years. The government budget for 1950-51 had made a provision of Rs. 800,000 as non-recurring grant to the Karnatak University. The figures shown in the budget namely, recurring Rs. 3,50,000/- and non-recurring Rs. 4,00,000/- are taken from the Government Resolution (Education Department) No. 9198 dated 10th August 1950.

The Government grant for dearness allowance has been calculated on the basis of 1/3 of the total cost on that account.

Examination Fees:

In the first year, the University had not held all the examinations, and students were permitted ~~xxxxx~~ to appear at the Bombay University examinations. In 1951 the University will hold all the examinations and ~~xxx~~ the option will be restricted to a fewer examinations. The University will also hold some examinations in October 1950. These factors have been taken into account in estimating the income and expenditure.

Tution Fees:

It is expected that the ~~xxxx~~ scheme of postgraduate studies will be-come operative during the second term. The receipts on this account have, therefore, been shown for one term only.

Other fees.

Eligibility Certificate

There are two types of eligibility certificates Rs. 10/- is the fee chargeable to S.S.C. students and Rs. 20/- to students from other Universities and Examining Bodies. No ~~xx~~ estimates have been shown for the income from Publications, as the sale proceeds of the University Publications are not expected in the current year.

..... 2.

Opening Balance.

The opening balance apparently shows a large amount, It was not possible to spend it; but most of the receipts included in it were against liabilities for election expenses and examinations charges.

EXPENDITURE SIDE

University Teaching:

The estimates are based on the provision made for the scheme of University Teaching and accepted by the Syndicate.

It may not be possible to get the services of suitable persons as Professors or Readers on the starting salary of the scales proposed. A higher starting salary may have to be offered in such cases. To provide for this contingency, the estimates are calculated on the average salary attached to these posts. As the recruitment to the teaching posts is intended to be completed some time by the beginning of the second term, the expenditure under these items in shown for a period of six months only

The Science Departments of the Karnatak College, and Lingaraj College, that will be utilized in the initial stages for postgraduate purposes, will have to be provided with additional facilities, equipment and material for bringing them up-to-date. This will involve a non-recurring expenduture of at least Rs. 1,00,000/-. The University has also planned a new Department of Geology and has provided an equal amount for capital expenditure by way of apparatus, equipment etc.

The grant provided for the Department of Mathematics is intended for the requisite equipment and material in the Department of Statistics proposed to be started under the postgraduate scheme.

II. Administrative Staff.

At presnet, the salary of the Vice-Chancellor is a charge on the Provincial Revenues. The expenditure on such of the administrative posts as are yet to be filled in, is shown for six months only.

III. Examination Charges.

The actuals under the several heads at the first examinations have been taken into consideration in framing the estimates.

The provision made for the award of prizes and scholarships is based on the recommendations made by a Committee specially appointed for the purpose by the Syndicate. The ultimate cost shown is higher as, next year, the awards will have to be made at all the examinations held by the University.

IV. Travelling Allowances.

The Provision made under this item is for (1) T.A. (2) H.A. and (3) Local Allowance.

During the budget year the Senate is expected to meet four times, the Syndicate twenty times, the Academic Council four times, the Faculties three times and the different Boards of studies three times, each.

In addition to these meetings, the T.A. for the meetings held during 1949-50 has also been provided in the estimates, as it would not be paid before the end of March, till the Syndicate framed the necessary Ordinances.

In addition to the authorities mentioned in 1 to 5, in the budget estimates, there are a number of Boards and Committees of a standing nature, constituted under the Act, Statutes and Ordinances; Sub-Committees for specific purposes are also appointed particularly by the Syndicate and Academic Council. Provision for their T.A. is made under other Committees.

The travelling allowance shown under recognised teachers is intended for such of the mofussil teachers as may be invited for participating in the scheme of lectures to postgraduate students.

V. Library.

The minimum that is required to be spent by way of capital expenditure for the purchase of books for a University Library, is estimated at Rs. 1,75,000/-. Out of this amount Rs. 2,500/- have been earmarked as non-recurring grant for Library for the Law Department. A recurring grant of Rs. 50,000/- has also been provided. The library staff will be appointed during the course of the next two months. The salary for the staff is, therefore, shown for six months only.

VI. Printing, Stationery etc.

The University will be required to publish the Handbook in the following four parts:-

Part I containing the Almanac and the list of members of the various authorities of the University;

Part II containing the Act, Statutes, Ordinances and Regulations;

Part III containing the list of text-books, and

Part IV containing the Rules regarding the award of prizes and scholarships.

The minutes of the meetings, particularly of the Senate, the Syndicate, and the Academic Council are required to the printed.

Soon after the postgraduate departments begin to function in the second term, the publication of a University Journal and a Bulletin may have to be undertaken.

The building at present occupied by the University Office has to be equipped with permanent electric installations. When the new postgraduate departments are created, internal telephone connections will have to be established.

VII. Election Expenses.

Reference is invited to the remarks made below the 'Opening Balance' under the 'income side'. A liability of Rs. 5,000/- for printing and other expenses relating to elections was already incurred during the last year; but the payment of the bills was made after the 31st of March 1950. Expenses for bye-elections during 1950-51 have also been provided under this item.

VIII. Other Items.

The various grants and contributions under this item are calculated on the basis of amounts earmarked for similar purposes by the Bombay and Poona Universities. The expenditure shown under University Hostel is intended for the reconditioning of certain portions of the Training College Buildings which are expected to be handed over to the University during the course of the year.

IX? Provident Fund Contribution:

The draft statutes have provided for Provident Fund Contribution at the rate of 1/16 of the salary of each employee

X. Buildings:

The immediate need of the University is for a suitable building to use the University Library and a building for the Convocation. It is proposed to erect the buildings at an estimated cost of Rs. 2,50,000/- eac

... 2.

The Reports of these five Sub-Committees have been attached herewith.* As the Principal, Secondary Training College Belgaum, had already submitted a comprehensive report regarding the facilities for post-graduate studies and research in his institution, no Sub-Committee to report on the theory and practice -of education was felt necessary. In respect of Commerce and Engineering, no attempt was made to examine the question as the two institutions responsible for these subjects will require some time for ~~xxxx~~ stabilizing their under-graduate working.
(available for inspection at the University Office).

General Remarks.

We are generally agreed -

i) that the Karnatak University has been created mainly with a view -

(a) to lay down a co-ordinated policy for undertaking all post-graduate studies and research under its direct control or supervision; and

(b) to implement it in collaboration with other institutions in the University area;

ii) that every affiliated institution in the University area be encouraged to assist in the implementation of the scheme to the best of its ability and resources;

iii) that so long as the academic equipment of a graduate remains what it is to-day, the M.A. and M.Sc. degrees by papers will generally be necessary before a student can embark on research;

iv) that the instruction for the M.A., M.Sc., degrees by papers should be conducted as methodically and adequately as the under-graduate training, under the direct control or supervision of the University at Dharwar and the services and co-operation of recognized teachers in the University area should be avail -ed of in making the programme of lectures comprehensive;

v) that Dharwar should be the main centre for the various University Departments of post-graduate work;

vi) that any mofussil college in the University Area should be free to organize post-graduate lectures for the M.A., M.Sc. degrees be papers in any subject provided the University is satisfied about
i) the Library, Laboratory and other equipment,
ii) the qualifications of the staff, and
iii) the adequacy of the numbers of lectures proposed to be delivered;

vii) that every member on the staff of a college wherever situated, if he can be recognized as a guide for a research degree, should be allowed to take research students under his guidance and suitable research grants be made to him by the University;

viii) that in conformity with the recommendations of the Radhakrishnan Committee ~~xx~~ and the present practice obtaining the Mysore Madras and other Universities, the Honours course be extend -ed by one year. This would enable an Honours student to get a more competent grasp of his subject and a closer acquaintance with research journals and technique. Such an honours graduate could directly proceed to a research degree without having to take another examination by papers;

ix) that so long as the University Departments are held responsible for the lecture instruction required for the M.A. degree by papers, the prestige of these Departments for research is

is likely to suffer. It is, therefore, suggested that post-graduate degrees by Research should be encouraged.

x) that a library should be equipped as expeditiously as possible to meet the needs of arts and social science subject in the first instance. The utility of a library for post-graduate work depends not merely on the collection of suitable books. An efficient ~~kxxxkx~~ library service and the provision of the necessary amenities (suitable furniture, lighting, canteen etc.) for long periods of work both for the staff and students would be of great help;

xi) that the publication of a University Journal (Under the Editorial Board of the heads of the University Departments) should be undertaken as early as possible.

Professional Colleges.

(1) The Secondary Training College, Belgaum.

The Principal of the College reports that the Government has been strenuously developing the Library and strengthening the staff to cope with the urgent need for advanced work beyond the B.T. stage. The number of students keen on the M.Ed. and Ph.D. degrees by papers or research is definitely on the increase. Considering that this institution will be solely responsible for training the large number of secondary teachers, its development as a first rate pioneering institution for educational theory and practice is an absolute necessity.

The establishment of a separate University Department is not, however, considered advisable. In the absence of any close acquaintance with the problems of administration and access to the variety of statistical information collected by it, the work of such a University Department is not likely to be sufficiently vigorous and purposeful. It is, therefore, suggested that the Educational Department, Government and University between themselves should set up an Advisory Committee under whose direction the facilities of this College would be re-organized and strengthened for research and independent inquiry in educational theory and practice.

(2) College of Agriculture, Dharwar.

The emergence of this College as a large experimental station with training facilities under a competent technical staff is the result of the national drive for self-sufficiency in agricultural produce. Its policy and administration is and will continue to be directly controlled by the State and the Central Government in the furtherance of applied research in the field of agriculture as an industry. A separate University Department will, therefore, be superfluous. An Advisory Committee (to be set by the University and the Agricultural Department) would be great help in co-ordinating the work of this college with such applied research as could be undertaken by the pure ~~xxxx~~ science departments of the University.

(3) The R.L. Law College, Belgaum.

Although professional training in legal studies has been fairly extensive in the past, legal research as such is a comparatively new idea. The Government of Bombay has recently become aware of this defect and the Committee appointed by it to review the organization and facilities for legal instruction in the State has suggested the creation of Legal Research Centres in the cities of Bombay and Poona. The absence of any mention of a centre for Karnatak is regrettable. The Bar Associations of Karnatak and the University will need to take up this matter with the Goveennment before the final decision on the Report is taken. A department of Law with a Professor and a Reader appointed by the University be instituted ~~in Dharwar~~ and a suitable grant be made to it for equipping its library.

(4) The J.G. College of Commerce, Hubli.

The J.G. College of Commerce, Hubli, will take some time to stabilize the organization of its undergraduate work and most of its post-graduate problems will either be identical with or closely related to the problems of social sciences. A strong University Department in Economics, Commerce, Transport, Sociology etc. would meet all the requirements.

(5) The D.V. Bhoomraddi College of Engineering & Technology, Hubli.

With the College not still being equipped for the graduate stage, the question of post-graduate studies does not arise. It should, however, be noted that -

(i) the college attracts the most promising section of students at their intermediate stage and that

(ii) the institution has a vital role to play in the industrial regeneration of Karnatak.

The University should take the initiative and move both State and Central Governments to appreciate the urgent need to equip this institution suitably.

Science Departments.

The establishment of well-equipped laboratories for all the science subjects (Physics, Chemistry, Botany and Zoology) and the provision of competent and adequate staff should be the principal concern of the University. But, under the present scarcity conditions, it will take at least three years to constitute these Departments on a workable basis.

Examining the other institutions within the University Area, we find that the Karnatak College, Dharwar, and the Lingaraj College, Belgaum possess well developed laboratories and scientific equipment for their under-graduate needs. In particular, the Karnatak College, Dharwar, has been, for some years, providing post-graduate facilities to students in Chemistry, Botany and Zoology and we are given to under-stand that an extensive scheme for building and equipping new laboratories for in Physics and Chemistry has recently been sanctioned and taken in hand. We, therefore, suggest that the University should immediately negotiate with the Government for a mutual arrangement under which the facilities available at the Karnatak College, Dharwar, can be extended and the staff strengthened so as to serve the urgent needs of the University for the next three years. The setting up of an Advisory Committee between the University and the Educational Department will also be necessary. The function of this Committee would be to advise the D.P.I. and the University on the best manner of administering these departments for post-graduate purposes.

As the Karnatak College is not yet sufficiently equipped for post-graduate work in Physics, provision for post-graduate facilities in Physics will have to be made in the Lingaraj College, Belgaum, so long as necessary.

The University may have to supplement the present staff by 4 Professors, one for each subject, and provide additional grant. The Heads of the Departments in Karnatak College, Dharwar, and Lingaraj College, Belgaum may have also to be designated Professors-in-charge of these University Departments during the interim period of about three years.

We also propose that a University Department of Geology be instituted in Dharwar with a Professor and a Reader and a special equipment and apparatus grant be provided.

Departments in Arts and Social Sciences.

In respect of post-graduate studies in Arts and Social Sciences we propose that the following University Departments be started immediately:-

1.	Kannada Language and Literature.	One Professor and one Reader.
	~~Kannada~~ Dravadian Philology. ...	One Reader.
2.	Sanskrit, Ardhamagadhi & Pali Languages.	One Professor and one Reader.
3.	Linguistics. ...	One Reader.
4.	English Language & literature.	One Professor and one Reader.
5.	Economics. ...	One Professor.
6.	Politics. ...	One Professor.
7.	Sociology. ...	One Professor.
8.	Commerce. ...	One Professor.
9.	Anthropology. ...	One Reader.
10.	Philosophy. ...	- One Professor and one Reader.
11.	Mathematics.& Statistics. ...	Two Professors and two Readers.

The scale of salary for a Professor should be Rs.600-40-1100 and that for a Reader Rs.300-25-650 with dearness allowance at Government rate and the benefits of the University Provident Fund. During the last ten years or so, the demand for competent personnel for the various branches of administration in the country has been so heavy that suitable persons for the posts proposed above may not be easily available; in which case, we would suggest that either the posts be held in abeyance or the Professor's posts be reduced to Readers' posts until such time as really competent men of experience and ability can be found.

Research Associates.

In addition to the above posts, we would suggest the creation of twelve posts of Research Associates on a fixed salary of Rs.250 per month inclusive of dearness allowance. These posts be not allotted to any Department as such. Younger men of exceptional merit and research standing should be appointed to these posts for temporary periods.

The Kannada Research Institute, Dharwar, started by the Government in 1938 appears to have been specializing in Epigraphy, Archaeology and Karnatak History and has built up a fine museum. If duplication of work is to be avoided the University and the Government should co-ordinate their efforts for studies in Kannada Literature, -- Archaeology and Karnatak History.

The procedure of recognizing Teachers for post-graduate studiesshould be suitably improved and extended with a view to enable the Teachers of mofussil colleges to take a more active interest in the various University Departments. If necessary, the post-graduate lectures de-livered by teachers from mofussil colleges may include compact courses of lectures delivered in one week during term time or at the close of a term according to convenience.

The various other details regarding time-table, adequate numbers of lectures, qualifications of recognized teachers, remuneration to recognized Teahers, etc. should be worked out by the University Teaching Board in consultation with the Heads of the Departments after they are formed.

KARNATAK UNIVERSITY.

(Enclosure to Item No. 8.
Syndicate meeting - 3rd June 1950).

Report of the Provisional Library Committee of the Karnatak University.

.....

(The Committee consisted of the Deans of Faculties and Dr. S.C. Nandimath and Shri S.S. Basawanal).

The first meeting of the Provisional Library Committee was held on Saturday, April 15, 1950, at 5-30 p.m. in the University Office when the following members were present:-

1. Dr. B.R. Dhekney.
2. Dr. M.S. Shah.
3. Prof. R.P. Pandit.
4. Principal V.C. Pavate.
5. Shri S.S. Basawanal.

The Committee gave detailed consideration to the various plans suggested for organizing the University Library and equipping the -- same to serve the needs of the various post-graduate schemes which the University proposes to undertake and work from June 1950. It was agreed that the planning of the Library should be so worked out that it could be made available for the use of the post-graduate teachers and students from July 1950. With this end in view, the Committee unanimously resolved to make the following recommendations:-

1. Mudhol Library:

The Vice-Chancellor has done well in accepting the offer of the Raja of Mudhol's library. It is necessary that the library is shifted to Dharwar at an early date. We suggest that the Manletdar of the locality should be immediately approached and requested to arrange for the inspection and transport of books at the University's cost. We would also favour a clerk from the University office being sent to Mudhol to help the Manletdar dispatch the books as expeditiously as possible.

2. The University Library:

It is clear that for some time at least the post-graduate -- students of the University will have to depend on the libraries of the affiliated colleges especially those of the well-established and old colleges. It is equally clear and important that the University must proceed immediately to set up its own library and equip the same so that during the period of transition it may be able to meet the minimum requirements of the post-graduate students. The first step in this direction would be to arrange for the selection of indispensable books in the various post-graduate subjects. We suggest that the following gentlemen should be requested to prepare the lists of books which are immediately needed in the subjects shown against their names:

1. Kannada - Professor Malwad, Professor Panchmukhi and Professor Kundangar.

2. Sanskrit, Ardhamagadhi, Pali etc. Dr. S.C. Nandimath and Professor K.R. Potdar.

3. Marathi - Professors M.V. Dhond and Nikumbe.

4. Urdu and Persian - Professor Farooqui.

5. English - Professors Bhave, Bhaskar and V.M. Inamdar.

6. Economics and Politics - Principal G.B. Jathar and Dr. B.R. Dhekney.

7. History and Geography: Professor C.D. Deshpande & Professor S.S. Basawanal.

p.t.o.

8. Sociology - Professor Sangave and Professor D'Souza.

9. Philosophy - Professor N.G. Damle and Professor Rajgopal.

10. Commerce - Principal B.M. Ramalingayya.

11. Physics - Principal G.S. Paramasivayya & Prof. N.N. Bhagwat.

12. Chemistry: Dr. M.S. Shah, Dr. Jadhav and Prof. Jatti.

13. Botany - Professor (Mrs). Gonsalves and Dr. Desai, (College of Agriculture, Dharwar).

14. Zoology - Professor P.W. Gideon and Prof. Katgihallimath.

15. Geology - Professor Shama Iyengar and Prof. R.V. Joshi (K.C.D.).

16. Law - Principal, R.L. Law College, Belgaum.

17. Engineering - Principal A.S. Menon.

18. Agriculture - Principal V.C. Pavate.

These gentlemen should be requested to mention separately text-books, reference books etc. prescribed in their respective -- subjects; and the Registrar should immediately proceed to place orders for the books selected. The Registrar would do well to order three or four sets of text-books in the various subjects.

We recommend the following book-sellers for the purchase of books for the University Library:-

1. Karnatak Sahitya Mandir, Dharwar.
2. Deccan Book Stall, Poona 4.
3. Popular Book Depot, Bombay 7.
4. New Book House, Bombay.
5. Taraporewalla & Sons, Bombay.
6. Indian Book House, Bombay.

Before placing orders for books, the Registrar should obtain from the above book-sellers their terms of business.

3. Accommodation:

It will take some time for the University to have its own building for housing the University Library. It is necessary, however, to secure some sort of accommodation so that the immediate needs of at least 50 students are adequately met. We understand that the University is likely to secure from the Government, the entire building of the -- Training College for Men, Dharwar. If this materializes, the problem of housing the library will have been solved for the time being at least. But if the Government is not able to secure the entire building, it -- should still be possible to obtain at least one big hall, and four -- rooms with a sanitary block attached. Adequate lighting arrangements should be provided so that the students would be able to read in the library during the night time also.

4. Furniture:

The following articles of furniture should be obtained not -- later than 15th June for the University Library:-

a) 30 cupboards, preferably made of steel.

b) 15 tables of the size 6' x 4½' each so that at least -- 50 students will be able to read in the library at the same time.

.....3

~~87~~ 91

c) 20 office tables for the library staff and post-graduate teachers.

d) 125 chairs.

e) 5 card cabinets, preferably made of steel.

f) two big clocks.

Library staff:

We generally approve of the provision made in the University Budget for 1950-51 for the library staff. It may, however, take -- some time more for the University to secure the full complement of the library staff. The following minimum staff should be immediately recruited so that the work of organizing the library service from -- July 1950 would proceed smoothly:-

1. One Librarian in the scale of Rs. 300-25-650. He should be at least an Honours graduate, holding a degree or at least -- a diploma in Library Science of a recognized institution, conversant with the Dewey and Ranganathan systems, and -- possessing practical experience of conducting public -- libraries.

2. One clerk in the grade of Rs. 55-130.

3. Two peons in the grade of Rs. 30-½-35.

D " " " 1600 sq. " (in 2 unit blocks)
E " " " 2500 sq. " (in 4 " ")

The plan and area of the above buildings give the basic requirement so that the Karnatak University may compare favourably with other Indian Universities.

The essential features of a University are its site, its lay out and planning of buildings for maximum utility combined with a pleasing exterior of modernity.
From the total area of the above building and the necessity of allowing suitable open spaces between them, the University would require at least 250 acres for the lay out of the building alone. A further area of 150 acres would be required for planning. Botanical gardens, Vivaria, Sports fields of various sizes and a large area on the Campus for open-air meetings. This would make a total of 400 acres for the Karnatak University.
The above buildings and the open spaces should be considered the minimum requirements of the Karnatak University and every effort made to construct the buildings according to the above plan.

If the University is to be planned and built with the above end in the view there can be no better ... 7

better site than the one chosen on Chota Mahabaleshwar. The above plans and estimates are made in relation to Chota Mahabaleshwar being the University site.

It may however be argued that since a major portion of the Universities postgraudate activites in both Arts and Science are to be found in the Karnatak College, the location of the University at Chota Mahabaleshwar would separate the administrative, residential and social activities of students from the postgraduate activities at the Karntak College, and thus defeat the essential purpose for which a University exists.

While admitting that immediate measures should be taken for acquiring buildings in the neighbourhood of the Karnatak College, for putting into effect immediately the postgraduate plan of the University, it must be clearly borne in mind that if the University is to grow and expand as any other modern University, it should not to be saddled with unsuitable buildings temporarily adapted for the immediate pressing needs of the University. Such make-shift arrangements should be considered as purely temporary and they should not in any way mar or jettison the long-range and more permanent plan which caters for the efficiency, dignity and status that a University should possess. It must also be realised that it is by no means essential for the Karnatak College to be for all time the University centre for postgraduate work.

If the Chotamahabaleshwar site plan and lay out at an initial cost of 50 lakhs is immediately taken in hand and postgraduate activities gradually transferred within the next few years, the Karnatak University at Chota Mahabaleshwar would afford ample opoortunities for rapid development in all branches of University research.. Such expansion would not be possible if the University is accommodated in any other area in Dharwar.

We sould like to express our deep sense of gratitude and indebtdness to Shri S.K. Latnekar, Deputy Enginner, and the members of his engineering staff - Shri A.G. Kulkarni,

Shri D.N. Talegaonkar and Shri Umesh Rao Heranjal, for their expert technical advice and willingness to help in preparing the above plans and estimates.

B

"In continuation of our report of 9th August 1950, regarding the location of the University buildings on the Chota Mahabaleshwar site, and in response to your alternative suggestion, we have the honour to submit a report on the acquisition, construction, demolition and adaptation of the buildings, and the purchase of open land in areas adjoining the Karnatak University Offices.

In submitting this report the following points suggested by you, have been taken into consideration:-

1. The constitution of new buildings on the Chotamahableshwar site at a cost of 50 lakhs is too heavy an expenditure for Government.
2. If, for the sake of convenience, the cost is spread over a number of years, the construction in part each year, would be of little help to University work during that period.
3. If the University post-graduate work in Science is to be conducted for a number of years in the Karnatak College, on account of its well equipped laboratories, it would be desirable to acquire areas in the vicinity of the College for locating the other activities of the University.

With reference to the first point we wish to submit that it is for the University to place before Government what it considers suitable for a University in the way of buildings and equipment, and not that the University should whittle down its requirements to a state of inadequacy in order to suit the present financial condition of Government.

A cost of 50 lakhs for a University at the present rate of high costs should be considered a very moderate and reasonable demand. It must also be taken into account that the present financial stringency of Government is only a temporary phase, and it would not therefore seem advisable for the University to agree to anything that would place it in a state of permanant inadequacy and unsuitability, merely because Government at present is not able to meet the legitimate and reasonable demands of the University.

124

With reference to the second point it must be admitted that the period occupied in constructing new buildings would cause some inconvenience, if the University is solely dependant on those new buildings for its post-graduate work. Such inconvenience, however, would not be experienced since temporary arrangements are being made by the University for post-graduate teaching in the affiliated Colleges for an interim period of 3 years, during which it would be possible to construct buildings to accommodate most of the administrative and academic aspects of University teaching.

With reference to the third point raised, we would like to stress that it would not be desirable for the University to depend permanantly on any of the affiliated Institutions for its post-graduate activities, nor should the location of any of the affiliated Institutions influence the location of the University. Post-graduate activities in affiliated Colleges, however, would need the encouragement, and to a certain extent the financial support of the University, in order to arouse the interest of the teaching staff in the most up-to-date knowledge in all branches of the subject, and thus ensure creative work in the 3-year Honours Courses to be initiated in University undergraduate teaching. While this aspect of teaching would form a part of University support, the main aspects of post-graduate research would be the full financial and academic responsibility of the University, irrespective of whether the affiliated Colleges take part in such work or not. The necessity of locating the University near any of the affiliated Colleges does not therefore arise.

If the various buildings for administrative, academic and residential needs of the University are to be planned and spaced as shown in our previous Chotamahabaleshwar report, the University would have to acquire Government and private property so as to make a continuous area of at least 250 acres in the neighbourhood of the present University Offices.

The following are the continuous areas most suitable in the vicinity:-

		Acres	guntas.
1.	Training College for Men.	19	14
2.	A.K. Girls' ~~High~~ School.	32	11
3.	Part of Collector's Compound.	20	0
4.	P.W.D. Offices.	6	0
5.	P.W.D. Executive Engineer's Bungalow and Compound.	1	7
6.	M. & S.M. Rly. " "	37	32
7.	All India Radio. " "	26	24
8.	Forest. " "	4	5
9.	Assistant Collectors. "	5	15
10.	Nawab of Savanur's. " "	31	0
11.	Forest Offices. " "	30	2
12.	Rapati's. " "	6	1
13.	Dharwar Gymkhana. " "	2	14
14.	Mahindarkar's. " "	4	32
15.	Ice Factory. " "	1	23
16.	District Survey Office. "	3	39
17.	Courpalais. " "	14	27
18.	Educational Inspector's Office.	2	4
	Total acerage.	247	10

Of this total acerage, 230 acres open land @ Rs.12000/- per acre or 300/- per gunta Rs.27,60000/-

15 acres of building @4$\frac{1}{3}$ lakh per acre or 10/- per sq.ft. .... Rs. 65,00000/-

19. Cost of construction of new buildings - Library and Convocation Hall. .... Rs. 6,23000/-

20. Cost of demolition of unsuitable buildings. [illegible]

21. " " additional & alterations to existing buildings. Rs. 1,00000/-

Total : Rs.99,83000/-

In acquiring the above property it will be necessary to provide suitable accommodation for Government Departments and private bodies thus displaced, and until this is done it

12-b

it would not be possible to obtain many of the areas proposed in the scheme.

It must also be noted that displacing Government depart-ments would mean the construction of new buildings for them at current high prices for materials. The current price of open building land in the area proposed is Rs.300/- per guntha and the cost of constructing II class buildings in the areas proposed, averages Rs.10/- per sq. ft.
Of the 247 acres to be acquired, there are approximately 230 acres of open land, and about 15 acres of building area.
On a rough calculation of Rs.1200/- per acre of open land, and Rs. $4\frac{1}{3}$ lakh per acre of buildings, the cost of purchase alone would amount to 93 lakhs. If to this is added the cost of construction of a few new buildings, and the cost of demolition of old buildings, even at a very conservative estimate, the total cost would amount to approximately 100 lakhs.

With the acquiring of property for almost one crore of rupees, it must be realised, that except for a few new buildings, the University will be accommodated in old buildings adapted for the purpose, and many of them in unsuitable locations. Another important aspect the University will have to consider is, whether the style and location of these old buildings, suitable for the simple needs of a community 75 - 100 years ago, can be made to suit adequately the varying needs of a modern Indian Universit now, and also what will be expected of that University at least 50 years hence.

On a careful consideration of the whole matter, it must be admitted that a University Campus cannot be adequately accommodated in anything less than 250 acres of land. To acquire this area in the vicinity of the present University offices and the Karnatak College, would entail enormous expenditure, since it involves demolition of a number of unsuitable buildings, additions and alterations to existing buildings, construction of new buildings, and arranging for the accommodation of displaced individuals and public bodies.

In spite of this enormous expenditure the scheme would not afford the same satisfaction as the construction of new buildings, each planned for a specific purpose.

The University will also have to consider the inconvenience caused to a number of Government and public bodies involved in this scheme of University expansion, and their willingness or otherwise to part with any of their property."

"That whereas the meetings of all-India learned societies and conferences are held between 20th December and 10th January and since it is desirable to allow the staff and students of the -- various affiliated colleges to attend such meetings without any interference with the routine academic work, it is proposed that the Karnatak University allow three weeks' vacation from 20th -- December 1950 to 10th January 1951 and extend the second term to 20th March to allow for this change".

RESOLVED that Prof. P.W. Gideon be informed that the Academic Council is not in favour of granting a three weeks' vacation as suggested by him; but the students who will attend the conference this year will be given the benefit of having attended the college for their absence on that score.

(12) Letter from the Assistant Secretary to the Government of Bombay, Education Department, inquiring whether the University is taking any action on the -- recommendation of the Joint Board of Vice-Chancellors in the State of Bombay -- regarding the adjustment and fixation of academic terms.

The recommendation of the Joint Board of Vice-Chancellors is given below:-

That the Joint Board of Vice-Chancellors is strongly of opinion that -

i) the academic year of the Universities in the State of Bombay should commence from January every calendar year and that the terms and vacations be as -- under:-

(a) the first term should extend from the beginning of January to the middle of April;

(b) the summer vacation should extend from the middle of April to the middle of June;

(c) the second term should extend from the middle of June to the middle of October;

(d) the annual University examinations should commence towards the end of October or the beginning of November;

(e) the results should be declared by the third week of December.

The abovementioned arrangement would have the advantage of the annual examinations being held at a time of the year when climatic conditions all over the State are very nearly alike and favourable for study and examination work. It would also have the advantage of providing a convenient period of camping for N.C.C. cadets. The arrangement may necessitate the holding of the S.S.C. Examination in October or November every year so that the candidates who pass it may be able to join the Colleges from the commencement of the academic year in January. The Joint Board trust that Government will make the necessary changes in the School Year and that the S.S.C. Board will alter the date of the holding of the S.S.C. Examination accordingly without inconvenience to themselves.

Until the proposed new arrangement is accepted the University terms should be as decided upon by the Bombay University viz:-

First term: From the 15th of June to the 14th of October, with a break of two weeks towards the second half of August, to be decided by the -- Syndicate in advance every year.

Second term: From the 10th of November to the 15th of March, with a break from the 21st December to the 8th of January.

RESOLVED that the Assistant Secretary to the Government of Bombay, Education Department, be informed that the Academic Council is in general -- agreement with the recommendation of the Joint Board of Vice-Chancellors -- regarding the arrangement of two terms in the academic year, provided, the dates suggested for the commencement and conclusion of the academic terms are suitably adjusted so as to fulfil the requirement of 180 clear working days in two terms, as recommended by the University Education Commission.

Before proceeding with the Agenda, the Vice-Chancellor referred to the tragedy of the aeroplane crash near Cairo and the sad death of Shri D.N. Kowshik, an ex-officio member of the Senate. Shri Kowshik hailed from Bhatkal. After a brilliant academic career he served the Government of India and the -- Government of Bombay both in India and abroad as an adviser in respect of the various industrial problems. In his sad and untimely death the members of the Senate have lost an able -- colleague who could have been of great value to the University. He requested the members of the Senate to stand in silence for two minutes in respectful memory of the late Shri D.N. Kowshik. The Vice-Chancellor undertook to send a message of condolence to Mrs. Kowshik and the bereaved family on behalf of the House.

(1) Consideration of the minutes of the meeting of the Senate held on 23rd June and 24th June 1950.

The minutes of the meeting held on 23rd and 24th June 1950 were confirmed with the following corrections and signed by the Vice-Chancellor:-

(a) On page 5 of the draft minutes, under the motion relating to Statute 102, add after "That in line 3 after the word 'English', 'Latin and Greek' be deleted". The mover accepted the amendment with the consent of the House.

(b) On page 6 of the draft minutes relating to Statutes 147 to 175, delete 'The motion was put to vote and carried' and substitute therefor 'after some discussion over Statute 172, the motion was put to vote and carried"

(c) On page 7 of the draft minutes delete the words, 'Latin and Greek' appearing under the 'Faculty of Arts', (a) once in the report of the Senate sitting as a Committee and again (b) in the motion moved by Professor S.S. Basawanal, near the bottom of the page.

(2) Election of two members by the Senate to the Financial Advisory Committee under Section 48 of the Karnatak University Act.

The Vice-Chancellor stated to the House that as Shri P.H. Gunjal was the only candidate duly nominated, he was therefore declared -- elected as a member of the Financial Advisory Committee and that -- arrangements would be made for the election of another member in due course.

(3) Consideration of the Budget Estimates for the year 1950-51.

The Vice-Chancellor at the commencement of the business explained to the House that under Section 51 of the Act, the Senate had no authority to make any amendments to the Financial Estimates submitted to it by the Syndicate. The House, could, however, pass Resolutions on the Financial Estimates for being communicated to the Syndicate. The Resolutions included in the Revised Statement of Business could not also be considered, as 14 clear days' notice required under Provisional Statute 23 had not been given. He referred to the procedure that was followed by the Poona University Court on a similar occasion and stated that if no member raised any objection or questioned the validity of the procedure he would be prepared to treat both the amendments and resolutions shown in the Revised -- Statement of Business as Resolutions in respect of the Financial -- Estimates.

Dr. M.S. Hanshetti thereupon raised a point of order and objected to the amendments and resolutions of the Revised Statement of Business being accepted as valid Resolution.

The Vice-Chancellor gave a ruling that the following amendments and resolutions were out of order:-

I. Amendments by Shri A.G. Joshi.

(a) To discuss the unusually stiff results in the last University examinations, the following cut motion is moved -

"In item No. 3 of the agenda i.e. Budget Estimates for the year 1950-51, on page 6, Part III i.e. Examination charges, in the total of 1 viz., Remuneration to Examiners, substitute Rs. 54,999/- in place of Rs. 55,000/-".

"In item No. 3 of the agenda i.e. Budget Estimates for the year 1950-51, on page 7, Part IV, head 7 i.e. 'Inspection of Colleges', substitute Rs. 4,999/- in place of Rs. 5,000/-".

(d) "That the recurring grant of Rs. 15,000/- for Expenditure Item No. VI(b), Printing of Minutes, Agenda, Annual Report etc., be reduced by Re. 1/-".

(e) "That the recurring grant of Rs. 3,000/- for Expenditure Item No. VIII(d), University Building and Garden -- Maintenance Charges, be reduced by Re. 1/-".

IV. Resolutions by Shri G.S.Kulkarni.

The Vice-Chancellor announced that the budget was then open for general discussion so that members could speak on any point relevant to the Financial Estimates.

Shri S.S. Basawanal presented to the House, on behalf of the Syndicate, the Financial Estimates as prepared by them and explained to the House the various items on the income and expenditure sides. He stressed the fact that this being the first budget of the University, it should be treated as being very tentative in character.

During the general discussion Prof. R.S. Mugali, Shri G.S. Kulkarni, Prof. K.R. Mahishi, Shri P.H. Gunjal, Shri C.S. Uppin, Shri N.K. Dixit, Prof. V.G. Kulkarni, Dr. N.B. Kabbur, Shri A.G. Patil participated and expressed their views on various points. At this stage the meeting was adjourned to the next day (30th September 1950) at 12-0 noon.

When the Senate commenced its business on the next day at 12-0 noon, Shri S.S. Basawanal, in his reply, explained to the House, the inadequacy of precise information on the various items of income and expenditure and dealt with the various points raised by members during the debate on the Financial Estimates. During the discussion on the budget estimates the attention of the Syndicate was drawn to the -- following points:-

(i) That the deficit on the recurring side could be reduced considerably if the provision made for the post-graduate departments be scaled down so as to meet the minimum -- requirements only at this stage.

(ii) That the income side could be improved by increasing the fees for the various post-graduate courses in a suitable manner;

(iii) That by-elections to authorities should be held as early as possible, preferably within three months after the vacancies are reported. The expenses of such by-elections are not likely to be considerable;

(iv) That a suitable grant be provided for the Board of Students' Welfare if it is to function vigourously.

(v) That the activities of the Board of Extra-Mural Studies -- should be planned more comprehensively and extension lectures under the auspices of the University should be printed in pamphlet form wherever feasible.

(vi) That the Senate be consulted if, for any reason, the site for the location of the University at Chhota Mahabaleshwar is likely to be dropped in favour of an alternative location.

(vii) That the work of the various Committees appointed by the -- Syndicate and the work of the Syndicate is likely to improve if the same members are not appointed on many Committees.

(x) That decisions of the Syndicate be taken after full consideration and forethought so as to avoid going back upon hasty decisions previously taken.

(xi) That in the selection of Junior Supervisors for the various examinations greater care would be necessary in respect of their reliability and probity.

(xii) That the seating arrangements at the various examinations be improved.

(xiii) That before drafting the Ordinance prescribing the academic dress for the Convocation, steps should be taken to ascertain informally the views of the members of the Senate.

(xiv) That Professors invited to participate in the post-graduate scheme of lectures be paid some suitable remuneration.

(xv) That the conditions for the recognition of post-graduate -- teachers be made fairly stringent so as to ensure high quality.

(xvi) That the funds provided for the Library should be spent with great care, and expert advice should be obtained in the -- selection and purchase of books.

(xvii) That in the appointment of examiners to the various examinations preference be given to really experienced persons so as to -- avoid sudden change in the percentage of results from year to year.

(xviii) That the Syndicate proceed to frame a Statute providing for a salary scale for the Registrar and that the scales proposed for the other servants of the University on the administrative side be suitably improved.

(xix) That vigourous efforts be made to collect donations and endowments for the University by the appointment of a Special Committee, if necessary.

(xx) That the question of amending the Act be taken up seriously and a proper Committee be appointed to study the question and submit a report.

4. Consideration of the First Ordinances from No. 1-87, 91-135 Transitory Ordinances 88 and the Ordinances relating to the various examinations as passed by the Syndicate.

The Vice-Chancellor placed all the abovementioned Ordinances before the House.

"That Ordinances 41 to 46 be referred back to the Syndicate".

After some discussion, Shri G.S. Kulkarni withdrew his motion with the permission of the House.

"That Ordinance 135 be rejected".

(iii) That the foot-note to Ordinance 240 should be so re-worded as to conform to the new numbering of classes in the secondary schools.

"RESOLVED that the matter on the 1st page dealing with the 'Renaissance' and the 'Movement' be dropped".

During the discussion Prof. R.S. Mugali and Prof. K.R. Mahishi expressed themselves on the following points:-

(i) That the first paragaphs relating to 'Renaissance' and the 'Movement' were not quite relevant to the activities coming within the period of the report and that they need not have been included.

(ii) As these two paragraphs seem to have been taken from the University Committee's Report, a reference to the Committee's Report be indicated if they are to be retained as part of the Annual Report.
